Chairman Frazier & members of the Special Council on Tax Reform & Fairness for Georgians,

On behalf of Georgia's cattle farmers and ranchers I want to thank you for the many hours invested in service to our great State. I also appreciate the way the Special Council reached out to the public by holding Fact Finding sessions throughout Georgia. Not only did you hold the Fact Finding sessions, but it is apparent you carefully considered the voices, including many of our members. The *Final Report* released earlier this month is evidence of the thorough and professional manner in which you accomplished your charge.

The Georgia Cattlemen's Association is supportive of the concepts and principles contained in the *Final Report*. We specifically support the "Proposed Agriculture Exemption Language" which most directly affects our members. We believe the changes proposed for agriculture will enhance our ability to compete both locally and globally.

If there is any way our organization can be of service to the Special Council do not hesitate to contact Josh White, executive vice president, at our office in Macon.

Sincerely,

Bill Bryan
President
